Cultivate VALUABLE RELATIONSHIPS

The Vineyard Team began in 1994 as a small group of like-minded growers interested in sharing new ideas about sustainable farming. Since then, it has become a nationally recognized nonprofit organization dedicated to protecting valuable resources for our farms and communities.

Learn FROM PEERS

Grower-to-grower exchanges allow farmers to share innovative ideas and valuable experiences with their peers.

Influence POSITIVE CHANGE

Because our focus is on science and education, the Vineyard Team informs decision makers on important issues such as resource conservation, best management practices and industry concerns. Member input is valued as the Vineyard Team staff continues to proactively educate and connect with community stakeholders and influencers.
