

DID YOU KNOW: Winegrape Crop Insurance...

- You MUST sign-up no later than **January 31st** to have coverage for the **2015** crop year
- Acreage reporting deadline extended to May 15th • Crop insurance can be required for USDA programs
- **Insure to your Contract Price per ton:** for listed varieties at up to **2.0 X** the Federally set price
- **Effective 2013:** Many varieties have higher pricing per ton to be paid at the time of claim **
- DON'T FORGET ABOUT GRAPE CLUSTER FREEZE INSURANCE – INSURE BLOCKS SUSCEPTIBLE TO FREEZE

How Does It Work?

The best way to understand the Federal Crop Insurance Program is by looking at an example:

Here we have a grower with 100 acres of Cabernet Sauvignon in SLO County who averages 4.0 tons per acre and has CAT Coverage. During the season extreme freeze damages the crop (some crop was harvested though determined to be a total loss):

How much coverage do they have at Catastrophic Level?

**200 Tons Guaranteed (50% of average yield)
X (\$1,275 X 55% Price Election)**

= \$140,250 Total Coverage

100 acres X 4.0 tons per acre X 50% coverage level X (\$1,275 X 55% price election)

How Much Will the Grower be Paid With a Total Loss?

- \$140,275 - (NOTE: Claim payment could be reduced by \$150/ton in SLO County for any lost tonnage left unharvested.)

How Much Did the Policy Cost?

- \$300 -

Deadline to Sign Up?

- January 31st -

Why Pan American?

“Vineyard Team’s relationship with Pan American is important. Through educational seminars, sponsorships and advertising; Pan American supports the winegrape industry with more than just insurance programs. This kind of partnership, combined with great customer service results in a winning relationship that delivers real value to our members.”

- Kris Beal
Executive Director, Vineyard Team
